Good morning, everyone. I can see some of you feel sleepy. I know how you feel. Well, the other day, a friend of mine gave me great tips for waking up early and I'd like to share them with you. One thing you can try is to stop using your smartphone 30 minutes before bedtime. The blue light from the screen can make it difficult to fall asleep. The other tip is to sleep with your curtain slightly open. The morning sunshine through the window helps you wake up easily. These are two simple things that can be useful. I hope you'll try them tonight!
